**DETAILED ACTION**

***Response to Amendment***

The Examiner acknowledges the amending of claims 1, 3, 8, 9, 23, 26, 30, and 31, as well as the cancellation of claims 18, 25, and 29.

***Allowable Subject Matter***

Claims 1, 3-17, 19-24, 26-28, 30, and 31 are allowed.

The following is an examiner's statement of reasons for allowance:

Claims 1 and 30 are believed to be allowable as the prior art failed to teach the use of an inverter or buffer off of the modulation signal generator which uses a transistor whose ON resistance sets the value of either the high or low potential of the differential signal. Additionally, claim 23 is believed to be allowable as the prior art failed to teach the corresponding circuit wherein the differential signal output circuit has a supply voltage which was not equal to the differential signal input circuit.

The remainder of the claims are allowable as they depend from the claims detailed above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
